Sangamon County Circuit Clerk Releases Smartphone App  
*First Of Its Kind in Illinois*

Springfield, IL – Users of Sangamon County Circuit Clerk Tony Libri’s office will have a new tool to navigate the court system this week. Victory Apps, the mobile application arm of Victory Enterprises, Inc., has developed an application (“app”) for the Circuit Clerk’s office that is now available on the Google Play Market for Android users.

Circuit Clerk Tony Libri is excited about the new technology.

“We have prided ourselves on keeping the Circuit Clerk’s office at the forefront of technology and user-friendly services, and this new app will build on that strong reputation we’ve cultivated,” said Libri. “We believe this is the first Circuit Clerk app in Illinois, and it may be first of its kind in the nation.”

The app allows users to find court schedules by date, case type, attorney, court room, judge and police agency; gives users access to various forms the office uses; allows record searches by name, case number, driver's license number, ticket number and filing date; and offers information on obtaining passports and links to the appropriate federal agencies. In addition, the app allows users to direct dial contacts at the courthouse, and a “Map It” function utilizes the device’s GPS capability to guide users to the building.

“Most people at nearly every income level have some type of cell phone today, and industry experts see phone manufacturers moving toward producing only “smart” phones in the near future,” Libri added. “By offering this free app, we hope to keep the experience at our office as helpful and friendly as possible and as efficient as possible for the taxpayers that should expect nothing less.”

Victory Apps is currently working with Apple on completion of an iPhone version of the app, and plans are underway for even more features in future updates. Other app clients of Victory include the Decatur Area Convention & Visitors Bureau, the Quad Cities Chamber of Commerce, and the City of Cedar Rapids.
